B.A. in Dance

The dance major will help students develop in several areas including technical proficiency, historical and cultural perspectives, personal artistry, and production skills. The major provides students with an understanding of how dance fits into a larger global context through courses in dance history, global perspectives on dance, and dance technique. Students in the major will also learn the behind-the-scenes process of putting a show together in a technical theatre class and will get the opportunity to develop their own unique “voice” as artists in choreography and dance composition courses. The dance major prepares graduates for careers in dance performance, choreography, and dance education, as well as advanced study in a graduate program.

Graduates of this major will be able to

- exhibit proficiency in various dance techniques and styles
- identify and evaluate historical, cultural, and stylistic forms of dance
- demonstrate personal artistry in the creation of dance performances
- explain the movement of the body in relation to dance
